

GREEN ENERGY INCENTIVE PROGRAM

How to take advantage of the Green Energy Incentive Program:

1. Benchmark your business.

- a. Each applicant must provide a benchmark analysis using the Energy Star Portfolio Manager as part of the application for this program.
- b. For assistance using the Energy Star Portfolio Manager, refer to the Green Energy Incentive Program page on GreenSantaClarita.com.

2. Determine your project.

- a. Contact appropriate utilities for information on available incentives. A list of incentives is available on the Green Energy Incentive Program page on GreenSantaClarita.com
- b. Contact a contractor to determine cost of project.

3. Submit Green Energy Incentive Application

- a. Applicants must document a minimum of 10 percent in energy savings as a result of the proposed project.
