Inert Materials (concrete, sand, dirt, clean fill, rock, gravel, etc.)	Recycle? Reuse?	Est. quantity (in tons)	Recycling Method/Franchised Hauler
Total			

Other Construction & Demolition Materials (wood, metal, drywall, carpet, cardboard, etc.)	Recycle? Reuse?	Est. quantity (in tons)	Recycling Method/Franchised Hauler
Total			

Land Clearing Debris (sand, dirt, clean fill, rock, gravel, trees, stumps, vegetation, etc.)	Per CA Green Building Standards Code, 100% of land clearing debris must be reused or recycled for non-residential projects. *	Est. quantity (in tons)	Recycling Method/Franchised Hauler
Total			

The City of Santa Clarita's Construction & Demolition Recycling Ordinance (05-09) requires all demolition projects, all commercial construction projects valued over \$200,000, all new residential construction projects, and all residential additions and improvements that increase building area, volume, or size to recycle a minimum of 65 percent (65%) of all inert materials and 65 percent (65%) of all other materials. There is a deposit required which is calculated at two percent (2%) of the highest valuation or \$15,000 (whichever is less) for construction projects, and ten percent (10%) or \$15,000 (whichever is less) for demolition projects.

Pursuant to 2013 California Green Building Standards Code, 100 percent of trees, stumps, rocks, and associated vegetation and soils resulting primarily from land clearing shall be reused or recycled. For a phased project, such material may be stockpiled on site until the storage site is developed. \* If contamination by disease or pest infestation is suspected, contact the County Agricultural Commissioner and follow its direction for recycling or disposal of the material.

It is the responsibility of the applicant to ensure the recycling requirements are met by working closely with the approved waste hauler(s). Please make sure you keep records from your waste hauler(s) or weight tickets from the C&D recycling center/landfill. These records will be necessary to prove your recycling tonnages and will be required to have your deposit returned at the end of the project. Please note deposits take up to three weeks to be refunded.

### CITY STAFF USE ONLY

<b>Project type:</b>	
Commercial project over \$200,000	
New residential project	
Residential renovation/alteration	
Demolition	

### CITY STAFF USE ONLY

<input type="checkbox"/> C&DMMP Approved	<input type="checkbox"/> Deposit Accepted
<input type="checkbox"/> Plans Stamped	<input type="checkbox"/> E- Plans cleared?
<b>Valuation:</b>	
Deposit: (Acct -102-2013.002)	2% or 10%
Total Amount Due:	

Pre-construction survey:

- 1) Will materials be sorted on-site or mixed for transportation to a diversion facility?  Sorted on-site  Co-mingled or mixed
- 2) Do you employ any construction methods to reduce the amount of waste generated on the project?  Yes (describe below)  No

Examples: salvage useful materials, advanced framing, etc.

Post-construction: **\*Both items must be completed prior to requesting the deposit refund.**

- 1) Has the project received a final inspection with a City Building & Safety Inspector?
- 2) Have you collected all weight tickets or diversion reports to submit to the City?

**Disposing of Materials Generated From Your Project**

Temporary Bin and Roll-Off Box

As of January 1, 2006, all temporary bin and roll-off box services in the City of Santa Clarita are franchised by the following companies. If you wish to use temporary bin and roll-off box services, you must use one of the franchised haulers below.

Athens Environmental Services	(800) 633-9933	9189 DeGarmo Avenue, Sun Valley
A-V Equipment Rental	(661) 259-2155	24933 Railroad Avenue, Santa Clarita
Blue Barrel/Waste Management	(661) 259-2398	25772 Springbrook Avenue, Santa Clarita
Burrtec Waste Industries	(661) 222-2249	26000 Springbrook Avenue, Suite 101, Santa Clarita
Rent-A-Bin	(661) 252-4941	20830 Santa Clara St, Santa Clarita
Republic Services	(800) 299-4898	12949 Telegraph Road, Santa Fe Springs

Self-Haul

Contractors may self-haul their waste and recyclable materials if they possess a valid California contractor's license for their scope of work. For example, in order for a demolition contractor to self-haul, the demolition contractor shall be licensed with the California State Licensing Board to conduct demolition services.

General contractors who subcontract service shall ensure all subcontractors are either using a City franchised hauler or are eligible to self-haul.
