

## May 2011 Table of Contents

- *California Gambles on Carbon Trade.* Rory Carroll. NYTimes.com. May 1, 2011.
- *Solar Cell Efficiency Could Be Boosted by Minimizing Defects.* Tiffany Stecker. Climatewire, Scientific American. May 2, 2011.
- *Climate Shift May Accelerate West Coast Sea Level Rise.* Lauren Morello. Climatewire, Scientific American. May 3, 2011.
- *Fox News Poll: Voters Cutting Down on Driving to Gas Prices.* Dana Blanton. FoxNews.com. May 3, 2011.
- *UN Renewables 'Bible' Says Clean Energy Can Outstrip Demand.* Alex Morales. Bloomberg.com. May 4, 2011.
- *Climate Change Panel: Renewable Energy to be Key.* Michael Casey. Boston.com. May 5, 2011.
- *Tree Rings Tell a 1,100-Year History of El Nino.* ScienceDaily.com. May 8, 2011.
- *Climate Panel Charts Options for Renewable Energy.* Andrew C. Revkin. NYTimes.com. May 9, 2011.
- *Could Carbon Labeling Combat Climate Change?* Joey Peters. Climatewire, Scientific American. May 9, 2011.
- *Study Finds Methane in Wells Near Natural Gas Drilling.* Wendy Koch. USAToday.com. May 9, 2011.
- *Summary for Policymakers.* IPCC: Intergovernmental Panel on Climate Change. May 9, 2011.
- *Can Renewables Power the World? IPCC Thinks So.* Nathaniel Gronewold. Climatewire, Scientific American. May 10, 2011.
- *Corn Supply Expected to Rise, Easing Food Prices.* Christopher Leonard. Associated Press, USAToday.com. May 11, 2011.
- *Mobile Apps Make it Easier to Go Green.* Jefferson Graham. USAToday.com. May 12, 2011.
- *U.S. Action to Combat Climate Change Remains Urgent.* Lauren Morello. Climatewire, Scientific American. May 13, 2011.
- *Lawmakers Bash Hurdles to Renewable-Energy Projects.* Elizabeth Bewley. USAToday.com. May 13, 2011.
- *Should Drivers Pay by the Mile Instead of the Gallon?* Ledyard King. USAToday.com. May 13, 2011.
- *With Gas Prices Soaring, Obama Looks to Ramp Up U.S. Oil Production.* Associated Press. FoxNews.com. May 14, 2011.
- *Climate Study Gets Pulled After Charges of Plagiarism.* Dan Vergano. USAToday.com. May 16, 2011.
- *Green Wars: Two 'Living Buildings' Battle for Sustainable Supremacy.* Tim Newcomb. Time.com. May 17, 2011.
- *LEDs Replace 100-Watt Light Bulbs Nearing Phaseout.* Wendy Koch. USAToday.com. May 17, 2011.

- *The Wrong Sites for Solar.* Erica Rosenberg and Janine Blaeloch. LATimes.com. May 18, 2011.
- *In U.S., High Gas Prices May Make Many Get Fuel-Efficient Cars.* Dennis Jacobs. Gallup.com. May 23, 2011.
- *Americans Say 'No' to Electrics Despite High Gas Prices.* James R. Healey. USA Today.com. May 5, 2011.
- *Debate Continues on Smart Grid Benefits Versus Massive Costs.* Peter Behr. Climatewire, Scientific American. May 25, 2011.
- *Big Companies Aggressively Jump into Clean Tech.* Jon Swartz. USA Today.com. May 26, 2011.
- *GOP Presidential Hopes Shift on Global Warming.* Alex Brandon. USA Today.com. May 27, 2011.
- *Global Carbon Emissions Return to Record Highs.* Gerhard Schneibel. DW-World.de. May 31, 2011.
  
- *The New Communications Climate.* Andrew C. Revkin. WMO.int. May 2011.
