Construction and Demolition Materials (wood, metal, drywall, carpet, cardboard, etc.)	Est. Qty. (tons)	Franchised Hauler/Self-Haul
Total		
Inert Materials (concrete, sand, dirt, rock, gravel, clean fill, trees, stumps, etc.)*	Est. Qty. (tons)	Franchised Hauler/Self-Haul/Reuse
Total		

*Pursuant to 2022 California Green Building Standards Code, 100 percent of trees, stumps, rocks, and associated vegetation and soils resulting primarily from land clearing shall be reused or recycled. For a phased project, such material may be stockpiled on site until the storage site is developed. * If contamination by disease or pest infestation is suspected, contact the County Agricultural Commissioner and follow its direction for recycling or disposal of the material.

City of Santa Clarita Franchised Haulers

Temporary Bin and Roll-Off Box Service

All temporary bin and roll-off box services in the City of Santa Clarita are franchised by the following companies.

If you are not self-hauling, you **must** use one of the haulers listed below:

America's Bin Company	(888) 500-9007
American Reclamation	(888) 999-9330
Athens Services	(888) 274-2074
Burrtec Waste Industries	(661) 222-2249
Consolidated Disposal Service, LLC DBA Republic Services	(562) 360-3932
Reel Waste and Recycling	(877) 588-7335 or (818) 361-2200
Rent-A-Bin	(818) 709-5599
Triscenic Production Services, Inc	(818) 367-0243
Waste Management (WM)	(661) 259-2398

Self-Haul

IMPORTANT: If self-hauling project waste, it is your responsibility to ensure facilities used divert at least 65% of material from the landfill. Contractors may self-haul their waste and recyclable materials if they possess a valid California contractor's license for their scope of work. For example, in order for a demolition contractor to self-haul, the demolition contractor shall be licensed with the California State Licensing Board to conduct demolition services. Waste hauling services may **not** be subcontracted.

General contractors who subcontract work shall ensure all subcontractors are either using a City franchised hauler or are eligible to self-haul. If you choose to self-haul, a separate self-haul verification form will be requested upon project finalization and submitted alongside all applicable weight tickets and/or diversion reports. The self-haul verification form can be found at City.sc/CDMMP.

The City of Santa Clarita's Construction & Demolition Recycling Ordinance (05-09) requires all demolition projects, all commercial construction projects of new construction or additions over 1,000 square feet and all tenant improvements, alterations or new construction valued over \$200,000, all new residential construction projects, and all residential additions and improvements that increase building area, volume, or size to recycle a minimum of 65 percent (65%) of all materials. There is a deposit required which is calculated at two percent (2%) of the highest valuation or \$15,000 (whichever is less) for construction projects, and ten percent (10%) or \$15,000 (whichever is less) for demolition projects.

It is the responsibility of the applicant to ensure the recycling requirements are met by working closely with the approved waste hauler(s). Please make sure you keep records from your waste hauler(s) and/or weight tickets from the C&D recycling center/landfill. These records will be necessary to prove your recycling tonnages and will be required in order to be eligible for a deposit refund. All diversion documents are due within 180 days of project finalization with Building and Safety. Please visit City.sc/CDMMP for instructions to submit your diversion. Deposits may take from four (4) to six (6) weeks to process once diversion is accepted and are only available via mailed check.
